

Are You A Candidate for UFE?

Uterine Fibroid Embolization (UFE):

UFE produces less pain and has a shorter recovery period than surgical treatments, but a majority of women (62 percent) have never heard of it, despite more than 20 years of clinical use.

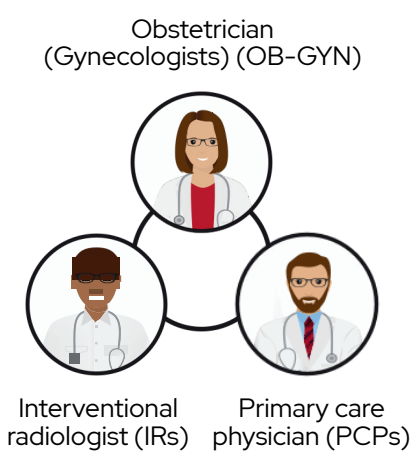

Uterine Fibroid Embolization (Femoral Approach)

Illustrated below is the femoral approach to UFE. Interventional radiologist can also perform UFE.

A Team Approach

It takes a team approach when determining what's best for you and your body. We work together to make sure you get the care you need.

Kevin L. Carson MD, CAQ

Dr. Kevin L. Carson is a trusted authority on non-invasive treatments for fibroids and hemorrhoids. A globally recognized physician, educator, and pioneer in his field, Dr. Carson is driven by a passion for empowering patients to overcome the debilitating challenges of uterine fibroids, hemorrhoids, and other vascular conditions to achieve full and healthy lives.

"I am committed to combating the debilitating effects of uterine fibroids and empowering women with the knowledge and innovative treatment options they need to reclaim their health and well-being."
